

Abdallah Zaher AbuSidu

Senior Full-Stack Developer | Frontend & Creative Development Specialist

Dubai | +971 52 775 9096 | abdallahabusidu@gmail.com
[Linkedin](#) | [GitHub](#) | [Portfolio](#) | [Youtube Channel](#)

Senior Full-Stack Developer with **5+ years of experience** delivering high-performance web applications, with a **strong frontend and creative engineering focus**. Specialized in **React, Next.js, Three.js, and the MERN stack**, with proven success building scalable fintech platforms, interactive 3D experiences, and conversion-driven user interfaces.

Experienced in **leading frontend teams**, architecting maintainable systems, and collaborating cross-functionally in fast-paced environments. Active technical educator and content creator in the Arabic developer community, with deep expertise in **3D web technologies and modern frontend performance optimization**.

Experience

Eunx - On-Site Dubai / Full time

Feb 2025 - Present

React.js/Next.js Team Lead

- Led **end-to-end frontend development** of a fintech investment platform and admin dashboard from scratch using **Next.js**.
- Designed scalable frontend architecture emphasizing **performance, reusability, and clean code principles**.
- Managed and mentored a frontend team through **code reviews, technical guidance, and best-practice enforcement**.
- Collaborated closely with backend, mobile, and product teams to ensure **seamless API integration and consistent UX**.
- Improved development code quality by introducing **optimized workflows, debugging standards, and performance audits**.

StoryMe - Remote Egypt / Part time

July 2024 - December 2024

Creative Developer

- Delivered **two high-impact creative web projects for governmental entities in Morocco**, focusing on immersive storytelling and advanced motion design.
- Built **interactive, animated web experiences** using **Three.js and React/Next.js**, increasing user engagement by **30%**.
- Collaborated with designers to translate **government requirements into performant, user-friendly digital platforms**.
- Achieved **4.8/5 average user satisfaction rating** based on post-launch feedback and surveys.

DataSkew - Remote Egypt / Part time

January 2024 - December 2024

React/NextJs Front End Developer

- Developed a **Laundry Technician Management Dashboard** for a **U.S.-based company**, used to track technicians, service requests, and operational workflows.
- Built a **role-based, data-driven dashboard** using **React and modern frontend architecture**, optimized for internal operations.
- Collaborated with backend and project managers to ensure **accurate data visualization, system reliability, and scalability**.
- Focused on **performance, maintainability, and usability** for non-technical operational users.

BashSquare - Remote Hungary / Full time

March 2024 - December 2024

Software Engineer

- Designed and implemented a production-ready client application, coordinating with cross-functional teams.
- Represented the company at **Salons Solutions Exhibition (Paris)**, supporting business development and lead generation.
- Built and optimized the corporate landing page, increasing traffic by **40%** and engagement by **25%**.

Intella - On site Egypt / Full time / Egypt

September 2022 - February 2024

React/NextJs Front End Developer

- Developed **IntellaVx and IntellaCx dashboards**, improving internal workflows and client interaction.
- Contributed to **\$3.5M fundraising success**, supporting investor demos and product readiness.
- Achieved the **highest Jira task completion rate** (150+ resolved tasks).
- Represented the company at **Cairo ICT Conference**, strengthening market presence.

Smartella / LearnCity - On site / Full time / England

June 2021 - August 2022

React/NextJs Front End Developer

- Designed and optimized **high-conversion landing pages** for 15+ clients
- Increased click-through rates by **45%** and client satisfaction by **70%**

Projects

Freelance Client Portfolio (React, GSAP, Three Js, GLSL, Tailwind, Matter Js, React three fiber).

- Built a visually rich portfolio with **interactive 3D experiences and advanced animations**
- Improved Lighthouse performance score from **34% → 96%**
- Increased SEO score from **40% → 90%** through technical optimization
- Achieved **100% Lighthouse best practices**

Slider With Shader (React, GSAP, Three Js, GLSL, Tailwind, React three fiber).

- Designed and implemented an animated slider with a custom shader transition effect using **GLSL**.
- Part of a paid course focused on creating immersive web applications with **React Three Fiber**.
- Showcased **advanced animation techniques and interactive design principles**.
- Optimized for performance and smooth transitions, achieving a **60 FPS rendering rate**.
- Enhanced user engagement through dynamic visuals and responsive design.

Center Of Gravity (HTML, CSS, Vanilla Javascript, CannonJs, GSAP, Three Js)

- Crafted an engaging hero section inspired by **Noomo Labs' footer design**.
- Implemented advanced animations using **HTML, CSS, JavaScript, GSAP, and Three.js**.
- Integrated **Cannon.js for physics-based interactions**, enhancing user engagement.
- Delivered seamless animations that respond to user interactions, achieving **60 FPS rendering**.
- Ensured cross-browser compatibility and mobile responsiveness for a smooth user experience.
- Demonstrated expertise in creative front-end development and interactive design principles.

Skills

Frontend: HTML, CSS, Sass, JavaScript, TypeScript, ReactJs, NextJs 15, React Native, Expo, VueJs, NuxtJs, Redux, Zustand, Tailwind, Bootstrap, MUI, Ant Design, Shadcn, GSAP, Framer Motion, React Spring, AnimeJs, ThreeJs, React Three Fiber, GLSL, Drei, MatterJs, CannonJs, PostProcessing.Js, EffectsComposer, Three-gui, D3.Js, Chart.Js, React Hook Form, Formik, Axios, Jest, Cypress, Testing Library React, Webpack, Vite.

Backend: NodeJs, ExpressJs, NestJs, MongoDB, SQL, Firebase, Prisma, Passport.Js, Bcrypt.Js, OAuth, JWT, Auth0, REST API.

Tools: Docker, Vercel, Netlify, PgAdmin, Git, Bitbucket, GitLab, Jira, Github Projects, Trello, Vs Code.

Design & 3D: Figma, Blender.

Education

Bachelor of Computer Engineering - Cairo University - Faculty of Engineering.

Certificates & Trainings

- **ThreeJs journey:** Developed and delivered the **Three.js Journey course by Bruno Simon**, encompassing 90+ hours of immersive tutorials. The course achieved over 5,000 students enrolled and a 95% completion rate. ([Link](#)).
- **Spark student Activity:** Led the Front-End development course for students **at the Faculty of Engineering, Cairo University**, fostering practical web development skills.
- **BARQ Academy:** Participated in an intensive week-long online training program, covering diverse topics including **Cloud Computing, Machine Learning, RPA, and DevOps**.
- **React Three Fiber Course:** Completed React Three Fiber: **The Ultimate Guide to 3D Web Development by Wawa Sensei**, gaining expertise in 3D web development using React.
- **ZTM Complete NodeJS Developer:** Completed **Complete Node.js Developer course by Zero to Mastery** on Udemy, focusing on backend development skills with 46+ hours of training.
- **Js Mastery private paid Next 15 course:** Attended a private, paid **Next.js 15 course by Js Mastery**, regularly updated to cover the latest technologies in the framework .
- **React Design System, Design Pattern Performance:** Completed an in-depth Udemy course on **React design patterns, best practices, and performance enhancements**.
